

# T52 Roll Cradle

the fast efficient way to transport rolls of paper  
or reels of wire or cable

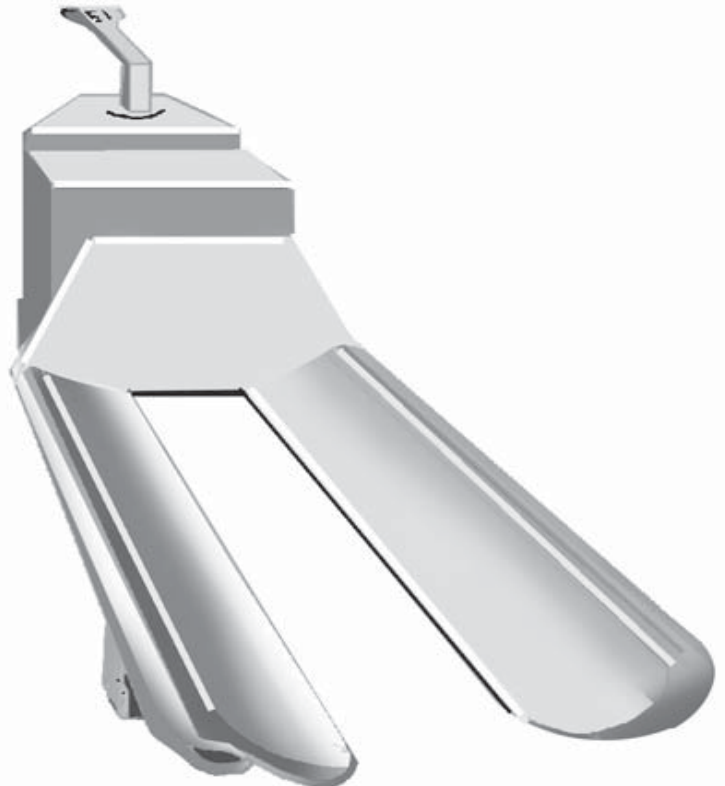

---

## Features

Smooth contoured edges to prevent roll damage  
Wide curved platens for equal load distribution

## Options

Special capacities and sizes  
Fold down platens for smaller diameter rolls or reels

**Total Roll Cradles** are designed to transform a standard power pallet truck into an efficient roll or cable reel transporter. By positioning the unit under the end of the product and hydraulically raising the platens the load can be elevated off the floor and moved to a nearby storage area.

**Due to the numerous different applications, there are no standard models.**

**Please contact Total Attachments for specifications of a unit to suit your particular requirement.**
