Quick disconnect mounting

Features

High tensile slab arm
Two piece floating slide bushings
Self aligning hydraulic cylinders
Light weight slide rail construction

Total Hydraulic Bale Clamps are used extensively for lifting pallet-less bales of products such as cotton, fabric, cardboard, or pulp paper. The frames of all Total bale clamps are constructed from both steel and alloy for a maximum strength to weight ratio. Slim tapered high tensile steel slab-arms incorporated into this clamp, allows close stacking of bales, providing the utmost utilization of warehouse and yard space.

Handles bales of various types of materials!
