

# T8S Sideshifting Bale Clamp

the safest, most reliable method  
of handling all types of baled products

---

## **Models available**

Basic -non sideshifting  
Sideshifting  
Rotating  
Extra wide range - for cotton  
bale handling

## **Options**

Numerous ranges and  
capacities  
Special bale arm sizes  
Quick disconnect mounting

## **Features**

High tensile slab arm  
Two piece floating slide bushings  
Self aligning hydraulic cylinders  
Light weight slide rail construction

**Total Hydraulic Bale Clamps** are used extensively for lifting pallet-less bales of products such as cotton, fabric, cardboard, or pulp paper. The frames of all Total bale clamps are constructed from both steel and alloy for a maximum strength to weight ratio. Slim tapered high tensile steel slab-arms incorporated into this clamp, allows close stacking of bales, providing the utmost utilization of warehouse and yard space.

**Handles bales of various types of materials!**
